DATA QUALITY REALITY CHECK

Discover how your organisation manages its data quality, identify its strengths and main areas for improvement, and find out its current maturity level.

WHAT DO WE ASSESS?

MANAGEMENT AND MAINTENANCE
How data is managed, monitored and corrected across its lifecycle.

AVAILABILITY AND USE OF DATA
Whether data is available when and how it is needed, and how accessible and usable it is.

INTRINSIC DATA QUALITY
The accuracy, validity, completeness and consistency of the information.

A **360°** view of how your organisation manages, uses and safeguards the quality of its data.

GET YOUR DATA QUALITY MATURITY SCORE

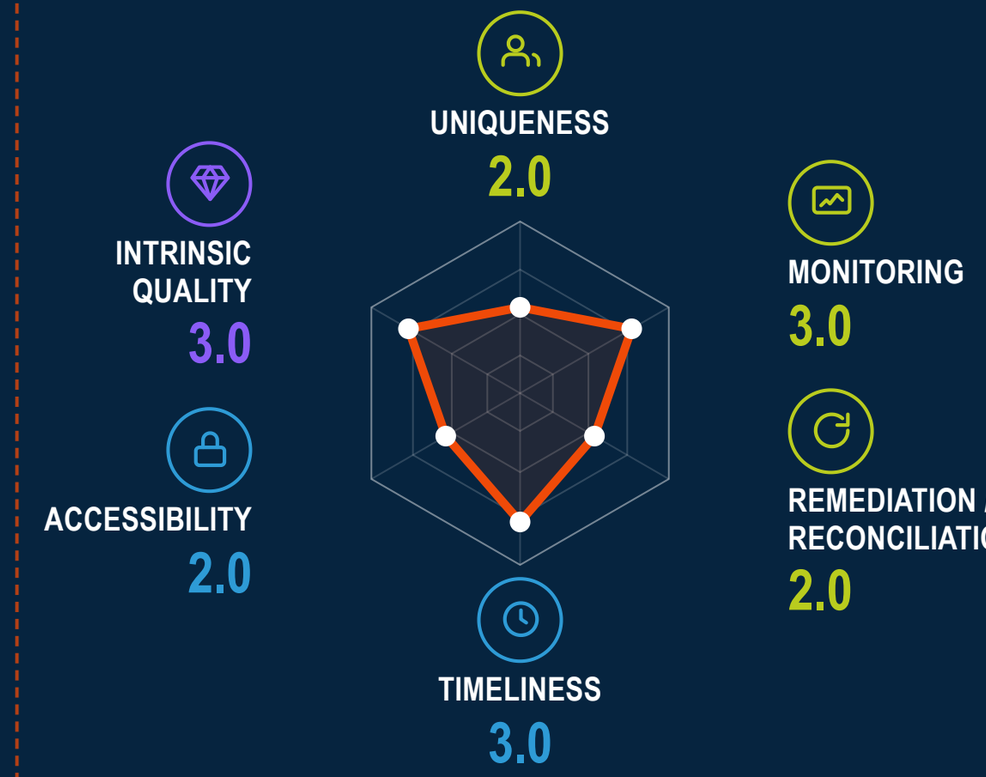

A clear diagnosis to steer priorities and next steps.

YOUR MATURITY LEVEL

2.5 / 4

BASIC – MANAGED

You have a solid foundation, but there are key opportunities to move towards a reliable and optimised data model.

IDENTIFY YOUR GAPS
See where your quality gaps are.

PRIORITISE IMPROVEMENTS
Focus on the areas with the most impact.

DEFINE YOUR ROUTE
Build a roadmap towards greater maturity.

DECIDE WITH CONFIDENCE
Turn the diagnosis into next steps.
